## Safety Precautions:

- All operators will be licensed IAW AR 600-55, Chap 7
- All operators will obtain, read and understand the operators manual for the Dantherm heaters.
- Operators will only use diesel, kerosene or JP8. **Not MOGAS**
- Fuel Cans will be appropriately marked. No more than one fuel can located next to the heater.
- Fire Extinguishers will be located at a fire point
- Fire guards are not required with this heater. However, AE 385-15 requires a roving guard when multiple tents are co-located in proximity to each other.
